Presentation

Exceptional! Only one cask in stock from 1973 vintage, it appears tired with a low alcohol concentration behind 40% alc./vol.. Being not a whisky anymore, it's blended with younger - 1998 and 2006 - which have given more energy. Keeping the full Sherry flavors, the length and the complexity, it's enhanced with younger single casks, very carefully. 48% naturel strength after blending. It's a time witness because you can understand how single malt tasted in seventies, how a very old malt whisky could taste? Amazing of length, beautiful and elegant memories which give hairs dressed. To be relished in silence only. 100 blowed handcrafted numeroted bottles are made in 2024. The bottle doesn't stand up, it needs a piece of old cask staves. Eutrapelie is a catholic name given to the Virtue of enjoying and levity.
