

FINO MATURATION MALT WHISKY KOREAN MARKET

mineral, light and elegant

FINO INFLUENCE

ROBE : GOLD NOSE : FLORAL AND SUBTIL MOUTH : TIGHT AND MINERAL FINISH : FRESHFUL RANCIO

Presentation

Usually the classic Sherry cask is Oloroso. Fino is a Sherry without oxydation process. A large veil made by yeast flor on the top of the wine, protects it against the oxydation.

These such casks give iodine, mineral, yeast, flor flavors. It gives a little golden colour.

The freshness and the campher, anis rancio are very interesting. It could be considered as a light in a whisky.

A double edition in July 2025 has been purposed to the Korean market: Fino and Manzanilla influence. That was interesting to compare the very subtil difference.

Technical Data

CATEGORY	Single Malt Whisky
DISTILLATE	light
AGE	12 y.o.
