Presentation

In the range of Fleeting (single casks only), this whisky appeared very interesting because it has kept his fresh and tight texture despite be matured in media cream Sherry cask, reaching an amazing long and complex after taste. Good balance between mellow from PX and whisky complexity, offering a soft and subtle feeling at 49.50% alc./vol. cask strength.
832 bottles of 500ml and few magnums have been made in July 2018.
