Presentation

Made upon the request of our Australian distributor Cerbaco. Our upper classic "Overaged blended malt whisky" has been enhanced with some peated malts.

We tried to find a balance between malts matured in Sherry butts (spicy, soft, mellow) and peated malt whiskies -approx 35 ppm) like a sweet and salted: two opposed savors which gave a great complexity.

A very soft dillution at 46% before bottling has been made, at this level of alcohol peat savors keep very balanced.

507 bottles have been made in April 2021
