Presentation

Every whisky is tried differently, some of them remind special memories and can't be appreciated objectively.

This whisky's new make spirit was hard to be found, 20 years ago. Every year, we enjoyed to discover the news characteristics reached and the complexity gained in the PX cask, sharing with Michel Couvreur every tasting détails. Now, each drop reminds us his smile meaning "we are on the good way".

The peat is enhanced by 20 years of "PX" patience, it has become finer and finer, being amended in liquorice flavors and reminding a breath of humid and acid forest. The alcohol strength is a little low but the powerfull flavors is amazing.

Already nostalgic to not be its maturation's witness anymore, the page is turned. This whisky is an hommage of what we have received and what we will transmit.
