## Presentation

Splash International, our importer in South Korea, would like to know the casks influence, the notion of details in a blend.  
Classic Intravaganza is knowing a great success in his country: how to can purpose the same spirit with different details.  
We purposed two different Intravaganza: one with a higher proportion of Oloroso maturation and this one with a higher Moscatel maturation proportion.  
It's a little bit more mellow, more spicy, full flavors.  
1487 bottles at 51% vol. are made the 18th September 2024.
