Presentation

Splash International, our importer in South Korea, would liked to know the casks influence, the notion of details in a blend.
Classic Intravaganza is knowing a great success in his country: how to can purpose the same spirit with different details.
We purposed two different Intravaganza: one with a higher proportion of Moscatel maturation and this one with a higher Oloroso maturation proportion.
It's a little bit bitter, roasted, dryer, more subtil.
1512 bottles at 49% vol. are made the 23rd September 2024.
