Presentation

2023 Edition - Distilled in June 1998, bottled in June 2023 at natural strength, without water.

Beautiful classic of Michel Couvreur range, when the old Pedro Ximenez is well balanced with malt spirit: giving round, mellow texture with light and fresh length together.

Appears easy, its complexity is felt after few seconds. Spiced, slightly woody, nice rancio.

975 bottles at natural strength of 50% alc./vol..

A good friend of long evening, it has to be savored slowly because its complexity.
