Presentation

The 22nd June 2021, we blended different casks, all of them coming from Domaine Stephane Tissot. Always freshly filled, they were left either in the humid cave or in the dry cellar. Whiskies matured in Les Bruyères casks are light and elegant when whiskies matured in La Maillolche are spicy with nuts savors: we have blended all together.

10 years in wood have given a lot of complexity and spicy and our share angels management makes it easy to drink, reaching a natural low alcohol strength.

All these casks exchange are very welcome, we are beginning a new maturation in "La Vie est Belge" cask, we supposed Michel Couvreur would have appreciated.

3000 bottles are produced with a part of 700ml bottles for US market.
