Presentation

Casks exchanges make discover new styles. Jura Vin Jaune casks, freshly emptied, non rinsed, no sulfites, letting all the lees inside. 5 Vin Jaune casks from Stephane Tissot make produce approx 2000 bottles (some magnums) in 2019. Limited quantity demand that bottles be reserved in advance.

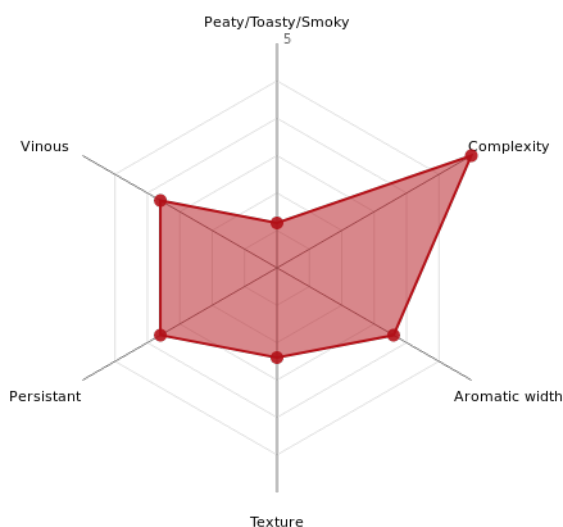

Bottled at cask strength, mellow and complex, the alcohol is felt with a nice balance between wonderful savagnin flavors and expressive tinge of bitter and high acidity.

Be careful, this whisky shows some sediments coming from the flor veil and the lees. Feed backs sound extrem: either love or hate!
