Présentation

Since few years, we like to purpose very special blended malts for our German distributors: This is an Overaged Malt Whisky without peated flavors.

The challenge is how to obtain good balanced flavors without salt, without peat. This style is replaced by dry Sherry matured whiskies. The part of Fino maturation is increasing, purposing a malt whith a lot of lights, with both oxydized and mineral flavors.

Subtle and elegant, we purpose a very concentrated flavors malt whisky, bottled at 49% abv, natural strength.

598/700ml and 36 magnums are made in June 2024.
